RE: Letter of Recommendation

Dear Bill:

It is my pleasure to provide a letter of recommendation for Keystone Consulting Engineers, Inc.

During my ten year plus association with Keystone, our project workload has been continuous and involves projects ranging in complexity and scope from small studies to multi-million dollar projects. It is comforting to me to know that I can always pick up the phone and discuss site related issues at any of our campuses, and receive timely and thoughtful analysis. I have always also been impressed with Keystone's ability to work through local approval processes and present information concisely and competently.

When design or facility issues pose challenges, Keystone is able to understand our needs and propose solutions that meet our goals. Long after projects are completed, Keystone remains committed to, and stands behind, their work.

I am pleased that your firm has been an important part of our growth and development over the past several years, and it is my hope that this relationship will continue in the future.

Sincerely,

Anita M. Kingsbauer
Vice President
