Comments from Edward J. Earley, Ed.D. on the efforts of J. Scott Stenroos, PE and Keystone Consulting Engineers on the Route 100 Widening Project for Upper Macungie Township.

"Certainly applauding the efforts of staff and businesses involved in this endeavor is appropriate as you suggested. However, it was only through your diligence, expertise and leadership that the "troops" came through in this Herculean task."

"At long last you can remove this NB and SB overhead signage on SR 100 from your "to do" list. Thanks for your perseverance and that of Scott Faust in completing this project."

Ed Earley 7-19-10

"I believe your negotiations with PennDOT re, the unforeseen problems with the completion of this project is commendable." Kudos !

"Patronizing has never been my style. I only offer compliments when they are earned and merited. Having said that, I believe your efforts to finish the SR 100 widening project, within budget, and your negotiations with Lehigh Valley Site and PennDOT, which we discussed this PM, is a credit to your collective expertise at KCE."
